POSITIONS OF RESPONSIBILITY

OFFICIAL HEAD OF TEAM DRISHTI

As the leader of Team Drishti, I acquired valuable leadership skills by overseeing a group of junior members in the development of the team's activity. Additionally, I effectively coordinated and collaborated with others to ensure the success of various events organized by Team Drishti.

GANDHARVA DRAMA CLUB MEMBER

My role as an Dance choreographer for the Gandharva Drama Club at SGGSIE&T.

ACHIEVEMENTS

- I cracked the seventh standard scholarship examination with 1st rank in my school .
- I got first prise in Essay writting competition at Taluka Level.

PROJECTS

ZOMATO CLONE

- I have created a Zomato replica using ReactJS for the frontend.
- Node.Js & Express.JS for the backend.
- Used the MongoDB for the Database.
- I have integrated a payment gateway within the application.

BOOK MY SHOW

- This frontend application is built using React.js and Thunderbolt API.
- React.js provides an efficient and component-based approach for creating a seamless user interface.
- The Thunderbolt API acts as a backend technology, offering data and functionality to the frontend.

SOCIAL MEDIA WEBSITE

- Created a social media website By using HTML, CSS, and PHP.
- Used MySQL for Database

CHAT APPLICATION

- Created a chat application by using React.Js for frontend.
- Used Node.js and Express.Js for backend.
- For database uded MongoDB.

COURSES/TRAININGS/INTERNSHIPS

DEVTOWN FULL STACK WEB DEVELOPMENT

successfully completed an intensive Full Stack Web Development internship at Devtown, where I specialized in utilizing the MERN stack. Throughout the internship, I acquired proficient skills in developing RESTful APIs using Express and MongoDB, while also gaining practical experience in constructing dynamic web applications. Notable projects I worked on during this internship include the frontend for BookMyShow and the backend for a book management web application.

HOBBIES

- Lavani Dance
- Drawing
